On-Line Learning Resources on Type 2 Translational Research

The University of Wisconsin Institute for Clinical and Translational Research (ICTR) has compiled the following list of on-line video and/or audio recordings of recent lectures on methods and issues related to type 2 translational research (T2TR).* University and community investigators can access these recordings through the UW Innovations in Medical Education (IME) Library web site at <http://videos.med.wisc.edu/>. Click on the 'Organizations' tab, then the 'UW Institute for Clinical and Translational Research' link. Then, under 'Learning Themes' click 'Type 2 Translational Research.'

Community-Academic Research Partnerships

Transforming Campus & Communities through Public Engagement, David Weerts PhD
The Critical Role of Boundary Spanners, Randy Stoeker PhD, Crystel Anders and Amy Mondoch
Perspectives from the Public: How Wisconsinites View UW-Madison, Kathy Cramer Walsh PhD
Building Capacity for Successful Community-based Research, Jeanette South-Paul MD
Challenges in Sustaining Community-based Participatory Research, Jenny Joe PhD, MPH
Health Research Partnerships with American Indian Communities, Alex Adams MD, PhD
A Successful Community-Academic Partnership to Address Health Disparities: The Healthy Black Family Project, Stephen Thomas PhD

Collaboration in Research

Creating Collaborative Research Conversations, Ben Crabtree PhD
A New Era of Research: Practicing Interdisciplinarity, Justin Williams PhD

Finding Evidence-Based Research Resources

Evidence-Based Research: The Basics, Ulrike Dieterle
Evidence-Based Research: Finding Resources, Ulrike Dieterle

Grant Writing

Fundamentals of Effective Grant Writing, Barbara Bowers PhD, RN, FAAN
Writing to Convince: The 1-page Abstract and More, Nancy Kaufman RN, MS

Program Planning and Evaluation

Are We Making a Difference: Evaluating Community-Based Programs, Christine Maidl Pribbenow

Research Methods

An Overview of Qualitative Research Methods, Barbara Bowers PhD, RN, FAAN

Type 2 Translational Research

Overview of Translational Research: Type I (Efficacy) and Type II (Effectiveness), Rebecca Marnocha, PharmD and Maureen Smith MD, MPH, PhD
Overview of Type 2 Translational Research and the Challenges and Opportunities of T2TR, Maureen Smith, MD, MPH, PhD and Barbara Bowers PhD, RN, FA

Translating Research and Policy

Integrating Research & Practice, Maureen Smith, MD, MPH, PhD
Reinventing Public Health: Translating Research on the Fundamental Determinants of Health into Population Health-Centered Policy, Lu Ann Aday PhD

T2TR in Action

Applying a User Centered Quality Model to Healthcare Environments, Michael O'Neil PhD
Can Environmental Design Be Therapeutic for Older Adults?, Michael Hunt ArchD
Community-based Participatory Research: Engaging Communities to Eliminate Health Disparities, Joseph F. West MSc, ScD
Exploring Health and Place from a Designing and Planning Perspective, Samuel Dennis PhD, RLA, ASLA
Healthy Communities: A Collaboration between Educators and Medical Providers, Chuck McCauley MD
A Human Factors Approach to Studying Medical Work, Matthew Weinger MD
Human Factors Engineering Translational Research in Healthcare Information Technology, Ann Schoofs Hundt PhD
The Power of Patient Preferences in MD-Patient Encounters, Betty A. Chewing PhD
Take Stock, Get Your Bearings and Mind Your Manners: Lessons Learned From a Cancer Control Researcher on How to Increase Success in Implementation Research and Practice, Melissa R. Partin PhD

* Developed through a collaboration of the Community Academic Partnerships Program of the UW Institute for Clinical and Translational Research (ICTR) and the UW School of Medicine's Innovations in Medical Education Video Library. ICTR is supported by grant 1UL1RR025011 from the Clinical and Translational Science Award (CTSA) program of the National Center for Research Resources, National Institutes of Health. 10/27/09
